#### Why You Will Love Retail Pro® Business Intelligence

#### Keep Personnel Informed With Automatically Distributed Information

You can create reports that are automatically e-mailed out to a selected distribution list. For example, you may have a simple report showing yesterday's sales sent out every

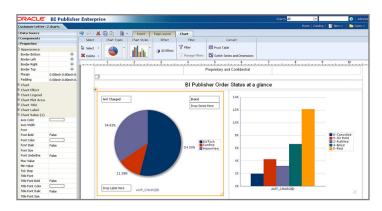

day, a monthly inventory report identifying dead items, and a quarterly report with a detailed financial breakdown.

#### Intelligent Agents Monitor KPIs Or Conditions And Notify You To Problems Or Opportunities

Many company's are faced with the loads of data, no time problem. By setting up Agents to monitor certain KPIs or conditions, you can be notified instantly via e-mail or text message when there's a

problem you need to address or an opportunity you can take advantage of. For example, for a seasonal style selling far better than expected, you might be able to get more in stock or at least shift your remaining stock to take advantage of stores with higher profit margins.

#### Your Data Made Beautiful

Can't see the forest for the trees? Retail Pro BI displays your information in easy to read charts and graphs. Identify problems or trends instantly with easily created data visualizations. Just choose the data sets you want to see visualized then drag and drop.

You don't need to be an expert statistician to decipher your data - you just need Business Intelligence.

#### Gain Insight With Geolocation Data

See your data overlaid with Google Maps data to visualize your location-based data. For example, intuitively grasp customer distribution for store locations or advertising, or identify international sales variations.
